Bias Detection Report

This report analyzes the distribution of weekly work hours in the Adult dataset.

The bias type is Distribution, focusing on the hours-per-week feature.

The relevant feature is hours-per-week, which shows a bias level of Level 1.

The skewness value of 0.22764253680450092 indicates a relatively symmetrical distribution of hours-per-week. The data is evenly distributed around the mean, and there are no extreme outliers.

The overall bias level is Level 1, indicating no significant bias in the distribution of hours-per-week.
