Bias Detection Report

The Cramér's V value of 0.1803867168957448 indicates a moderate correlation between the "Ethnic_Code_Text" and "RecSupervisionLevelText" columns. The Balance metric of 0.550003807252405 and Shannon Entropy of 1.7434708194978574 for the "Ethnic_Code_Text" column suggest a moderate level of bias in the distribution of ethnic groups.
